# WHY?

## STAY CAMPUS LONDON

Join our vibrant, international community of students, achieving their targets in English and living under one roof. Stay Campus London is the English language school of the 21st century. We believe that no one offers the level of accommodation, hospitality, language training, social activities and cultural exposure that we strive to give you. We have created a brand-new model for language learning which values each student as a connected, open and hard-working individual in an increasingly networked world.

# INTERNATIONAL SUMMER CAMPUS

## COME AND JOIN US AT OUR SUMMER SCHOOL, HERE'S WHY!

Our three purpose-built campuses provide a great place for students to live and learn under one roof. Our facilities are perfect for relaxing and socialising with friends, with a multitude of different rooms and on-site activities available. We carefully select our teachers to ensure that we have the most enthusiastic tutors helping our young learners to explore and develop their experience of the English language. We believe students learn more successfully if learning takes place both in and out of the classroom. We develop bespoke curriculums which connect the morning lessons to the afternoon activities, allowing the students to gain background knowledge and learn the history behind some of London's best attractions. Students will have the chance to meet and socialise with other students from all over the world and learn about cultural diversity, using English as a lingua franca to communicate with people from around the globe. Our programmes include meals, afternoon excursions and walking tours. We also offer in-house evening activities such as karaoke and movie nights amongst others.
